About Us

Production Areas

- Buiding Maintenance Units
- Facade Cleaning Machines
- Elecrical Suspended Scaffolding
- Special Design/ Custom Made
- Rebar Cutting Machines
- Rebar Bending Machines
- Resistance Bending Machine

Our company, one of the leading companies of Building Maintenance Units (BMU, Light construction machinery and equipments is continuing its activities in its Ankara factory located in the area of Ostim Organizational Industrial Zone Istanbul, sales and service departments continues its activities at Istanbul Ikıtelli Organizational Industrial zone.

Together with 20 dealers in Turkey and overseas 15 distributors, manufactures products oriented to construction sector.

With its experienced and extended staff; provides project design. manufaturing,assembly and maintenance services.

Cooperation with Hacettepe University for the development and analysis of the products is active.

Ademsan Machinery provides sales, installation and technical support services for Building Maintenance Units, Special Design Platforms and Rebar Cutting & Rebar Bending Machines.

Machine designs belongs to itself, during the years of 2013 and 2014 has successfully completed the research and development program of developing façade cleaning systems /building maintenance units together with TUBITAK.

Ademsan Machinery offers products to customers use that undergo rigorous testing and multidisciplinary quality control from the start of raw material to end.

Along with standard machines, in accordance with customer requests different assortments and custom made platforms are manufactured.

Ademsan Machinery provides and serves its customers with its; project department of engineers,professional technical staff, continuous development and with wide range of machinery.

With its quality focused operation has signed to major project in Turkey and overseas.
